Get one-on-one help with your genealogy research

Researching family history is a popular pastime but one that can sometimes be frustrating, with brick-wall ancestors and challenging branches of the family tree. We're here to help! Join Kingston-Frontenac Public Library's Local History and Heritage Librarian, Anne Hall, for one-on-one assistance with your genealogical research through May 2022.

Hall is hosting seven online sessions, held over Zoom, each a half-hour long. During the sessions, participants can get tips and suggestions to take their family trees and other research to the next level.
