### **Author talk with Aric McBay: *Inversion* and the art of climate storytelling**

Discover a fresh perspective on climate awareness through the captivating storytelling of local author and activist [Aric McBay](#) as he discusses his latest book, *Inversion*, at a talk hosted by Kingston Frontenac Public Library (KFPL).

*Inversion* explores the story of a nomadic population living in a world of rich biodiversity that must routinely outrun the fires that bring both destruction and renewal.

McBay is known for past works, including *Kraken Calling*, *Full Spectrum Resistance (Vols. 1 and 2)*, *Deep Green Resistance* and *Peak Oil Survival*.

"Aric's stories go beyond our community, making sure everyone is aware of climate issues," said Jake Miller, Librarian, Adult Programming. "This discussion offers more than just insights into climate awareness; it offers a fascinating journey into the artistry and research behind his storytelling."

The event will be in a one-on-one interview format, taking place on January 27 at 2 p.m. at the Central Branch. An audience Q& A will follow the main discussion. Registration is required and can be completed at <https://calendar.kfpl.ca/event/9552891>.
